DETAILED ACTION

Response to Amendment

Amendment, filed on October 30, 2003, has been entered and acknowledged by the examiner.

Allowable Subject Matter

Claims 16 and 18-22 are allowed.

Regarding claim 16, the following is an examiner's statement of reasons for allowance: The prior art of record neither shows nor suggests a deflection coil including the combination of all the limitations as set forth in claim 16, and specifically a rear flange and a front flange, the rear flange and the front flange each comprising a respective plurality of individual wires forming portions of wire turns, one of the flanges having a first flange portion comprising a first plurality of the individual wires, and the one of the flanges having a second flange portion comprising a second plurality of the individual wires not including the first plurality; a plurality of coil portions fanning out in a fan-shaped manner from the rear flange to the front flange, a current supply wire having a first portion extending from one of the individual wires of the coil portions along the first portion of the one of the flanges, arranged so as to cross and be attached to but electrically insulated from the first plurality of the individual wires, and the current supply wire having a second portion free from attachment to the second plurality of the

individual wires, characterized in that the second plurality of the individual wires is free from impression by a crossing wire could not be found elsewhere in prior art.

Regarding claims 19-21, claims 19-21 are allowed for the reasons given in claim 16, because of its dependency status on claim 16.
